A person wearing a dark grey or black tracksuit is captured in a walking motion on a red wooden floor. The person's right leg is forward, and their left arm is slightly bent. The lighting is dramatic, with strong highlights on the person's hand and the floor, and deep shadows elsewhere. The overall mood is dynamic and athletic.

ACCESSORIES

JAROD

SIZE: S M/L XL

**IL SISTEMA SEAMLESS**

Il sistema Seamless è una tecnica produttiva che elimina le cuciture tradizionali in modo da conferire al tessuto un'elevata elasticità e il massimo comfort. La tecnologia Seamless abbinata ad una trama a compressione graduata conferisce al capo una vestibilità aderente "soft-touch".

SEAMLESS SYSTEM

Seamless System is a production technique that eliminates traditional stitching from the garment, giving the fabric more elasticity and maximum comfort. The union of this Seamless technology with a graduated compression weave gives the Jarod undershirt a soft-touch anatomic fit.

IL TESSUTO THERMAX

Il tessuto Thermax garantisce il massimo livello di isolamento termico in qualsiasi condizione climatica assicurando l'ottimale mantenimento della temperatura corporea. La particolare fibra consente un'elevata traspirabilità trasferendo all'esterno il sudore e mantenendo la pelle asciutta.

THERMAX FABRIC

The high-tech fabric Thermax guarantees maximum thermal insulation in all weather conditions, ensuring optimal body temperature. A modern fiber gives the fabric increased breathability, wicking away perspiration and maintaining the skin dry.

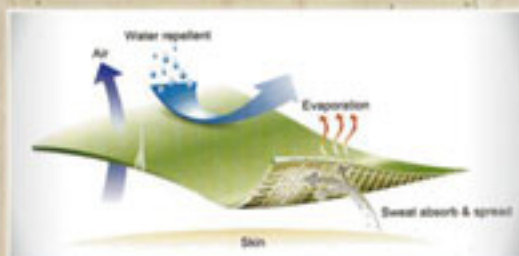

INDIVIDUALLY PACKED

**COMPOSITION:**

60% POLYAMIDE
40% WINCOOL

KIRA

SIZE: S M/L XL

NATURALE, FRESCO, ANTI-BATTERICO e TRASPIRANTE

Grazie al fatto che la sezione della fibra di bambù è interamente ricoperta di micro-fessure, questa ha eccellenti proprietà di ventilazione e assorbimento dell'umidità.

Con questa inimitabile micro-struttura, i capi d'abbigliamento in fibra di bambù possono assorbire ed evaporare il sudore in pochi attimi.

La tecnologia in fibre di bambù permette di mantenere, in piena estate, di abbassare la temperatura corporea fino a 2 gradi in meno rispetto ai normali vestiti.

NATURAL, FRESH, ANTI-BACTERIAL and BREATHABLE

Thanks to the fact that the section of bamboo fiber is completely covered with micro-cracks, this property has excellent ventilation and moisture absorption.

With this unparalleled micro-structure, the clothes of bamboo fiber can absorb and evaporate sweat in seconds.

The technology of bamboo fiber can maintain, in summer, lower the body temperature up to 1 or 2 degrees lower than normal clothes.

LEGEND

A set of products specifically indicated for technical activities, constructed with the highest level of textile fabrics and designed to provide comfort to players while training or while engaged in match sessions.

A fabric that combines together high performance specifications and a modern look, specifically indicated in representative clothes.

products made with environmentally friendly materials and conserves resources, chosen and designed to be completely integrated with the environment made unique thanks to its combination of comfort and lightness.

Totally cushioned foot bed deliver maximum shock absorption for long-lasting comfort. Technologically advanced construction resists abrasion from your boots.

A set of products made of technologically fabrics that keep your body cool, dry and comfortable, thus reducing fatigue and improving performance.

Products with materials designed to promote perspiration and keep you cool and dry, high performance and low environmental impact.

Products made with quality materials, breathable and comfortable. Their lightness and softness make them unique in terms of elegance comforted.

A set of waterproof products; which repel water and keep the player dry and light in all adverse weather conditions.

Products that have become a safe alternative to the shiny polyester suit, with the addition of a feature, perspiration. The fabric gives the interlocking pieces made with this elegance and refinement fabric.

A set of products designed with a new ergonomic fit that allows the fabric to adhere to the skin but reduces possible chaffing in specific areas.

Natural, anti-bacterial, breathable and cool, bamboo charcoal provides natural minerals which absorb moisture, prevent bacteria growth and reduce odor. It also has soft feel, its drape qualities and new appearance entice clothing designers more and more.

Warmtech stands for warmth products, with low weight, high durability and lasting value for performance and visual differentiation combined with technical performance.

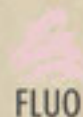

Two-tone fabric or fabric doubled in two colors to create a single, reversible head, and then used in two colors for every need and proposed as two different products in one.

Products realized for being easily personalized by print and logos thanks to special sections which offer a big choice of personalization.
